

The PEOPLE of Indiana WANT the DO NOT CALL list - that should be enough!!!
Proceeding with 02-278 will confirm that business/money holds power over
Government & it's people. There are more than enough outlets for soliciting
customers without disrupting families during dinner, sleep, etc. I cannot, nor
should I have to, turn off my telephone in order to enjoy peace at home.

It is rare that a law, that really works, enhances the quality of life. Most law
imposes inconvenience and cost on the majority because of a few "bad apples" - I
received a speeding ticket in 20 MPH Church zone at 11:30 PM; there was zero
traffic. PLEASE enforce the SPIRIT of LAW and fight those who chose to seek
constitutional loop holes.
